“

Baraka is an ancient Sufi word which means "a blessing or as the breath, or essence of life" from which the evolutionary process unfolds, and also that is believed to be possessed by certain persons and objects. The spirit or Baraka inspired the creation of a cupboard that uses no language because its design speaks magnificent images of natural beauty. Charismatic by its never-ending contrasts between ancient and contemporary lines.

Inspired by the critically acclaimed Pixar's short animated film Partly Cloudy, this collection aims to reflect children's imaginary world. With it, you can expect your child to look upon it and travel across the threshold between reality and imagination.

By creating something unique with the use of simple shapes that reminisces us to the Memphis Design Group and the 30's Art Deco, the collection celebrates the aesthetics and the symbolism behind every piece. It stands out by its unique form and high level of design.

A modern dining table with a capacity for 8 people, Bertoia is a majestic statement piece for any dining room. If the dark marble of this stunning dining table wasn't enough to make this the design fit for your home décor, the golden ring on the middle of the countertop gives it an even more refined touch. A piece with unmistakable trendy materials and a design that is sure to stun you, Bertoia is a homage to design itself.

“

Boca do Lobo, an harmonious agreement and concord of Portuguese design, that brings an unique high to life. Inspired by a tall structure, taller than it is wide, often by a significant margin, distinguished from masts by their lack of guy-wires and are therefore, along with tall buildings, self-supporting structures, the WAVE Nightstand has one drawer and five vertical shelves, with a glass and lacquered look.

“

Inspired by the critically acclaimed Pixar's short animated film Partly Cloudy, this collection aims to reflect children's imaginary world. With it, you can expect your child to look upon it and travel across the threshold between reality and imagination. By creating something unique with the use of simple shapes that reminisces us to the Memphis Design Group and the 30's Art Deco, the collection celebrates the aesthetics and the symbolism behind every piece. It stands out by its unique form and high level of design.

“

The Illusion Series brings a touch of magic to the children's playroom decor. This kids' furniture set includes a table, a stool and a chair, the perfect addition to every bedroom and playroom where kids can develop their skills and learn new things.

For a more childish and playful touch, the chairs and stools have colorful synthetic fur inspired by wild animals – polar bear, leopard and wolf – that provides a unique connection to nature while providing extra comfort.

Drawing inspiration from Victorian era, a masterpiece suspension lamp exemplifies the contemporary dualities of art and functionality. Hanged by two chains, a striking broken pole lies as an antique fixture with four intricate edge detailing arms topped by elegant pane lanterns hand-sculpted by casting molds.

COOLORS | COLLECTION

The power of color is a cool phenomenon which inspired the creation of the COOLORS collection. Colors play an important role in our physical environment. They are used for their aesthetics as well as their ability to influence the human psyche through the stimulation of one's visual sense. Colors induce many emotions and states of mind most of which are subjective, however some are more universal such as the ability of warm colors to create a feeling of comfort and the calming effects of cool colors. By associating color sensations with our collection, we intend to stimulate emotions that allow all who come in contact with our designs the chance to identify themselves with them and bring some color into their world.

Divine Armoire

KOKET | LOVE HAPPENS

DEAR KOKET DEVOTEES

Never has the time felt more right for me than now to develop a brand that is truly a personal reflection of who I am. KOKET offers a glimpse into my world and everything that moves me. It is what I believe in, where I have been, and where I will take the brand; all closely tied to my personal growth.

I am comfortable taking risks—and often, turning heads and commanding attention. KOKET is not about design trends or fulfilling design voids. It is a highly edited collection—not just of pieces of furniture, but a collection filled with the experiences, simple pleasures, passions and life events that have shaped me.

My Guilty Pleasures and Exotic Opulence collections are composed of dramatic case goods, luscious upholstery, exquisite lighting and decadent furs, made from sought-after, high quality materials.

Within my collection, I embody the multiple, complex and beautiful sides of a woman, truly speaking to her inner desire. My favorite representation of this is the striking Divine Armoire. The natural iridescent peacock feathers represent the exotic inner goddess, while the golden ribbon handle channels the fantasy and innocence of a young girl. The interior is lined with decadent antique mirror, a finish that helped inspire my creativity and the creation of KOKET.

I am constantly working to grow the brand to offer women the KOKET lifestyle. I am pleased to say that in 2016 KOKET plans to launch their own fabric collection filled with an array of plush velvets, smooth satins and supple leathers.

Through KOKET I will share ma joie de vivre and coquettish frill while empowering you to follow my lead and take risks to create your own sense of individual style—for yourself, your home and your life.

Fall in love with KOKET and let me empower you through my collection!

With all my love,

A handwritten signature in black ink, appearing to read "Jant".

CIRCU | MAGICAL FURNITURE

FANTASY AND MAGIC IN ONE WORLD

CIRCU was built from a dream! And that is to allow children to realize their own dreams and to give them the chance to live in their magical world. CIRCU is the ultimate expression of being young, spontaneous, colorful, innocent and pure.

CIRCU is introducing a whole new world and a whole new state of mind. CIRCU is much more than a furniture brand, we craft dreams and work with the realm of fantasies. Our mission is to team up with parents and help them reach their inner child while at the same expanding their children's imagination and creativity. CIRCU wants to create educational moments through our dreamlike ambiances. Emotional Intelligence is one of the most important aspects during the very first years of any child's life, so our commitment is to push it forward and to cultivate it.

For kids, their bedroom is more than just a place to sleep. It's where they do schoolwork, play games, roughhouse, read, daydream, play with friends and stockpile toys. As you plan your child's bedroom, you'll need a space that serves all those functions. CIRCU will present to you some of the most amazing bedroom décor ideas, to help you create their dream bedroom.

Now parents cannot punish their children by telling them to go to bed earlier or to go to their bedrooms. With CIRCU the bedroom will be their favorite room of the house. Parents will have to be more creative when punishing their little rebels!
